

# Flemington Education Plan: Update

Thank you for your interest in the Flemington Education Plan.

Schools involved in the plan include Flemington Primary School, Debney Meadows Primary School, Mount Alexander College, and Ascot Vale Special School.

To help create a shared vision for the future of education in Flemington, we engaged with students, teachers, parents and community members from Flemington and the surrounding area from 2 May to 14 June 2019.

The community was asked to identify:

- the top things that contribute to a good school
- what barriers exist for them to achieve a quality education
- what additional support would help better provide a quality education.

We have produced a community engagement report, which summarises what we heard from the community and outlines the next steps for the Flemington Education Plan.

You told us that high-quality teaching, good facilities, a safe and inclusive environment, and student-centred learning are key factors to consider as part of the Flemington Education Plan.

Findings also indicated that providing additional learning support based on each student's needs, and better health and wellbeing support, will help students feel engaged, happy and safe at schools.

The community's feedback from the engagement is being used to help shape the Flemington Education Plan.

**Download the report detailing what the community told us [here](#)**

While the Flemington Education Plan is being developed, the four schools are exploring opportunities to share resources and leverage each other's strengths. This includes working together to develop a range of shared programs and approaches, to improve teaching and learning for all four schools.

For further information about the Flemington Education Plan head to the Department of Education website [here](#)

## For more information

If you would like more information about the new Flemington Education Plan, visit the [Victorian School Building Authority](#) website.
